

Chillicothe Metal Co., Inc. Announces In-House Manufacturing Capability of UL-2085 Listed Fuel Tanks

Chillicothe, IL, January 5, 2010 - Chillicothe Metal Co., Inc. today announced their expanded design and manufacturing fuel system capabilities to now include the offering of UL-2085 listed fuel tank systems.

Chillicothe Metal Co., Inc. now manufactures UL-2085 (U.S.) and cUL-S601(Canada) listed sub-base fuel tanks in single or multi-compartment designs. UL-2085 listed fuel tanks utilize a lightweight monolithic insulation material between the inner and outer tanks. Chillicothe Metal's UL-2085 technology is licensed with the Steel Tank Institute (STI). The UL-2085 technology provides a two hour fire rating, impact and ballistic protection. Every tank is subject to Chillicothe Metal's ISO-9001: 2000 Certified Quality Plan utilizing state of the art manufacturing practices and will carry "Steel Tank Institute", certification. The UL-2085 tanks also comply with UL-142, ULC-142 and NFPA-30 as well as International Fire Code requirements. Custom fabrication is available.

Chillicothe Metal Co., Inc. has earned a position of leadership in the on-site power generation industry by offering exceptional and consistent quality, customer service, and the ability to design and manufacture to any and all unique project specifications.

Rob Fennell, Chillicothe Metal CEO explains that "expanding our capabilities by offering UL-2085 tanks simply provides another opportunity to better serve our customer base". We are always listening to our customers closely and searching for ways to provide additional value.
